

DESCRIPTION

Premium milled white rice, carefully processed and polished to deliver clean, uniform grains suitable for human consumption.

NUTRITIONAL INFORMATION

Grade	1
Moisture	12% max
Broken grains	5% max
Color	White

SUITABLE FOR

Intended exclusively for human consumption. Common uses include household cooking, food service, ready-made meals, milling blends, instant rice production, and value-added food products.

STORAGE | SHELF LIFE

Store in a clean, dry, and cool facility protected from direct sunlight. Keep away from moisture and pests to preserve flavor, texture, and food safety. When properly stored, white rice maintains peak quality for up to 24 months.

PACKAGING | LOGISTICS

Shipped in 25 kg or 50 kg polypropylene bags or big bags, depending on customer requirements. For container exports, loads use food-grade liners and humidity-control systems to prevent condensation and maintain grain quality during transport.

ORIGIN | AVAILABILITY

FEB - MAR - APR - MAY - JUN
