# THE GLOBAL AGRICULTURAL SOURCING PLATFORM

GROW FARMS

WHO WE ARE

Grow Farms is a global sourcing
platform dedicated to delivering
premium agricultural
commodities directly to our
clients.

We manage the entire sourcing
and fulfillment process for every
product we offer, ensuring
complete control over quality,
logistics, and delivery.

ARGENTINA

SPAIN

We operate from offices in Argentina and Spain, serving clients across the UAE, Saudi Arabia, Kuwait, Egypt, Vietnam, China, Spain, Italy, and Brazil — and we continue to grow. Our expanding footprint reflects a commitment to building lasting partnerships in every market we enter.

WHY GROW FARMS?

At Grow Farms, efficiency is not just a promise — it's built into every part of our process. From our documentation department to our logistics network, every operation is designed to reduce friction, increase reliability, and deliver real value to our clients.

ONE PLATFORM.
EVERY STEP

Our digital platform gives buyers full visibility over products, RFQs, shipments, and documents. Built with real user needs in mind, it simplifies the agri-trade process, while staying true to our personal and hands-on support.

Technology that works the way agri-business should: with clarity, speed, and trust.

1. BROWSE PRODUCTS

Easily explore forage, feed and grains with clear specifications and real-time availability.

2. CREATE & MANAGE RFQS

Submit, track and manage Requests for Quotation with full transparency and flexibility.

3. CONTRACT

Close deals securely, with dedicated support at every step of the process.

4. SHIPPING INFORMATION

Access packing options, shipping timelines and phytosanitary documentation in one place.

5. DOCUMENTATION

Download the documents you need — accurate, compliant and always up-to-date.
