

DESCRIPTION

Made from chopped, sun-cured alfalfa pressed into uniform cubes, this product provides a convenient and consistent source of high-quality forage rich in protein, calcium, and digestible fiber.

NUTRITIONAL INFORMATION

Protein	18% min
Moisture	12% max
RFV	150 min
Color	Green

SUITABLE FOR

Ideal for dairy cows, beef cattle, horses, goats, sheep, and camelids. Common uses include improving forage quality, boosting energy, supporting milk production, enhancing growth, and ensuring a stable fiber supply.

STORAGE | SHELF LIFE

Store in a cool, dry, and well-ventilated environment. Protect from moisture to preserve nutritional integrity and prevent mold. Under proper storage conditions, the product maintains its quality for up to one year.

PACKAGING | LOGISTICS

Loaded in 40 ft high cube containers, ensuring efficient use of space and stable handling. Shipments are secured with protective liners and export-grade strapping to maintain product integrity throughout international transport.

ORIGIN | AVAILABILITY

Argentina

Year-round
