

## DESCRIPTION

Premium alfalfa pellets made from ground, sun-cured alfalfa compressed into uniform 6–8 mm pellets. Provide a highly digestible and consistent forage source suitable for multiple livestock species.

## NUTRITIONAL INFORMATION

Protein	18% min
Moisture	12% max
RFV	150 min
Color	Green

## SUITABLE FOR

Recommended for dairy cows, beef cattle, goats, sheep, horses, and camelids. Common uses include improving forage quality, increasing protein and energy, supporting lactation, and stabilizing diets for performance or breeding animals.

## STORAGE | SHELF LIFE

Store in a dry, cool, and ventilated environment. Protect from moisture to prevent mold or pellet degradation. When properly stored, alfalfa pellets maintain their quality for up to one year.

## PACKAGING | LOGISTICS

Loaded in 40 ft high cube containers in bulk or big bags, depending on customer requirements. Shipments are secured to ensure handling efficiency and product stability throughout transport.

## ORIGIN | AVAILABILITY

Argentina

Year-round
