

DESCRIPTION

Premium food-grade chia seeds, cleaned and sorted for uniform size, purity, and high nutritional value.

NUTRITIONAL INFORMATION

Purity	99.95% min
Moisture	12% max
Color	Black

SUITABLE FOR

Intended for human consumption. Widely used in bakery products, cereal mixes, beverages, smoothies, nutritional supplements, dairy alternatives, health snacks, puddings, gluten-free formulations, and ready-to-eat products.

STORAGE | SHELF LIFE

Store in a cool, dry, and ventilated location, protected from direct sunlight. Avoid heat and moisture to maintain fatty acid stability and prevent oxidation. When properly stored, chia seeds retain their quality for up to 24 months.

PACKAGING | LOGISTICS

Shipped in 25 kg or 50 kg polypropylene bags or big bags, depending on customer needs. Export containers are prepared with food-grade liners and moisture-control systems to protect the product from humidity and preserve freshness and food safety...
