

**DESCRIPTION**

High-protein soybean meal obtained from solvent-extracted soybeans, offering a reliable and digestible amino acid source for all classes of livestock.

**NUTRITIONAL INFORMATION**

Fat	3% max
Protein	47% min
Moisture	12% max
Fiber	5% max
Ash	7% max
Urease activity	0.20 un PH
Size	4 mm

**SUITABLE FOR**

Suitable for poultry, swine, dairy cows, beef cattle, sheep, goats, aquaculture, and equine diets. Common uses include increasing crude protein, enhancing amino acid balance, improving growth and feed efficiency, and supporting milk and muscle development.

**STORAGE | SHELF LIFE**

Store in a cool, dry, and well-ventilated facility. Prevent exposure to moisture to avoid caking, mold, or nutrient degradation. When protected from humidity and pests, soybean meal maintains its quality for up to six months.

**PACKAGING | LOGISTICS**

Shipped in 40 ft high-cube containers in bulk. Containers are prepared with moisture-control systems such as absorbent liners and anti-condensation blankets to regulate humidity, minimize clumping, and protect product quality during long-distance...
