

DESCRIPTION

Clean and selected white sorghum grain used as a consistent energy source in animal feed formulations.

NUTRITIONAL INFORMATION

Purity	99% min
Moisture	13% max
Damaged	3% max
Test weight	71 kg/hl min
Color	White

SUITABLE FOR

Formulated for poultry, swine, beef cattle, dairy cows, sheep, goats, and aquaculture. Common uses include increasing energy density, replacing maize or wheat, improving feed conversion, and supporting maintenance, growth, or production diets.

STORAGE | SHELF LIFE

Store in a cool, dry, and ventilated area. Protect from moisture, insects, and rodents to maintain grain integrity. Properly stored white sorghum remains stable for up to one year.

PACKAGING | LOGISTICS

Loaded in 20 ft or 40 ft containers in bulk presentation. Containers are conditioned with VDry anti-humidity blankets and moisture-control liners to reduce condensation and ensure grain protection during international transport.

ORIGIN | AVAILABILITY

Ukraine

JAN - FEB - SEP - OCT - NOV - DEC

Bulgaria

JAN - FEB - SEP - OCT - NOV - DEC
